PROJECTS

Portfolio Project - [Live Project](#) | [GitHub Repo](#)

Apr 2026 – May 2026

Tech Stack: React.js, Tailwind CSS, Framer Motion, GitHub Actions |

- Developed a modern, responsive, and ATS-friendly portfolio website to showcase technical skills, projects, certifications, and professional achievements.
- Implemented reusable React components with responsive UI design and smooth animations using Tailwind CSS and Framer Motion, improving user engagement.
- Automated continuous deployment via GitHub Actions CI/CD pipeline and GitHub Pages, reducing manual deployment effort by 100%.
- Optimized website performance and accessibility across desktop, tablet, and mobile – achieved cross-functional compatibility for all screen sizes.
- Integrated professional contact form, resume download, project showcase, and certifications sections to enhance recruiter engagement.

Full-Stack Developer – Avido fitness - [GitHub Repo](#)

Mar 2025 – July 2025

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Drizzle ORM, Stripe API

- Built a full-stack PERN fitness app with 12+ REST API endpoints, JWT authentication, and session-based multi-role user access control
- Integrated Stripe API for 2 subscription plans and one-time payments with webhook listeners for real-time payment and subscription lifecycle management
- Designed a normalized PostgreSQL schema with 8+ tables using Drizzle ORM; Dockerized 3 services and configured a 4-stage GitHub Actions CI/CD pipeline
- Deployed frontend on Vercel and backend on Render with production-grade CORS configuration and secure environment variable management, enabling automated deployments via CI/CD pipeline.
